

Subject: CAM certification glass wool

Dürrenäsch, the 5th of December 2022

In accordance with the requirements of the DM 23 June 2022 CAM (Minimum Environmental Criteria), we hereby declare that our glass wool has the following characteristics:

- It does not require the use of flame retardants of any kind;
- It does not require the use of any type of blowing agent in the production phase;
- It does not require the use of any type of lead catalysts;
- Sager mineral wools comply with the "Q" note as per EC regulation no. 1272/2008 (CLP) and are also EUCEB certified (attached)
- With a recycled content of 75%, stated in our EPD, we meet the requirements of CAM

With kind regards

Beat Bruderer, CEO

Christoph Hablasch, laboratory manager
